GEN 3.1 AERONAUTICAL INFORMATION SERVICES

1 ResponsibleService

1.1. The Aeronautical Information Service, which forms part of the Zambia Airports Corporated Limited, ensures the flow of information necessary for the safety, regularity and efficiency of International and National Air Navigation within the area of its responsibility. It consists of AIS HQ, International NOTAM Office (NOF), located at Kenneth Kaunda International Airport and other AIS units (ARO) established at International Aerodromes as listed in paragraph 3.5 below

1.2 AIS Headquarters

Aeronautical Information Services Zambia Airports Corporation Limited P.O. Box 30175 Lusaka 10101 Zambia.

Telephone Numbers: +260 (211) 271048

+ 260 (211) 271313 + 260 (211) 271044

Mobile: + 260974204867

+ 260962608766 +260960579866

Fax Number: + 260 211 271469 AFS Address: FLKKYFYX FLKKZPZX

Email: ais.lusaka@zacl.aero / zaclais.lusaka@gmail.com

1.3. International NOTAM Office Kenneth Kaunda International Airport P.O. Box 30175, Lusaka 10101

Zambia

Telephone Numbers: +260 (211) 271044

+260 (211) 271313 +260-211-271048

Fax Number: +260-211-271469
Comm. Telegraphic Address: NOF LUSAKA
AFS Address: FLKKYNYX

Email: ais.lusaka@zacl.aero

This service is provided in accordance with provisions contained in ICAO Annex 15 Aeronautical Information Services.

2 Area of responsibility

The Aeronautical Information Service is responsible for the collection and dissemination of information for the entire territory of Zambia and for the airspace over the Flight Information Region.

3 Aeronautical publications

- 3.1. The aeronautical information is provided in the form of the Aeronautical Information Products consisting of the following:
 - Aeronautical information Publication (AIP)
 - Amendment Service to the AIP (AIP AMDT);
 - Supplement to the AIP (AIP SUP);
 - NOTAM and Preflight Information Bulletins (PIB);
 - Aeronautical Information Circulars (AIC); and
 - Checklist and list of valid NOTAMs

A checklist of AIP pages containing page number/chart title and the publication of effective date (day, month by name and year) of the information is reissued with each amendment and is an integral part of the AIP.

GEN 3.1 - 2 AIP 24 FEB 2022 ZAMBIA

3.2 Aeronautical Information Publication (AIP)

The AIP is the basic aviation document intended primarily to satisfy international requirements for the exchange of permanent aeronautical information and temporary changes of long duration essential for air navigation.

AIP Zambia is published in one volume. The AIP is published in a loose-leaf form in English only for use in international and domestic operations of all types of flight.

3.3 Amendment service to the AIP (AIP AMDT)

Amendments to the AIP are made by means of replacement sheets. Two types of AIP AMDT are produced:

- -regular AIP Amendment (AIP AMDT), issued in accordance with the established regular interval (ref. GEN ...) and identified by
 a light blue coversheet, incorporates permanent changes into the AIP on the indicated publication date; and
- AIRAC AIP Amendment (AIRAC AIP AMDT), issued in accordance with the AIRAC system and identified by a pink cover sheet and the acronym

NOTE:AIRAC, incorporates operationally significant permanent changes into the AIP on the indicated AIRAC effective date.

A brief description of the subjects affected by the amendment is given on the AIP Amendment cover sheet. New information included on the reprinted AIP pages is annotated or identified by a vertical line in the left margin (or immediately to the left) of the change/addition.

Each AIP page and each AIP replacement page introduced by an amendment, including the amendment cover sheet, are dated. The date consists of the day, month (by name) and year of the publication date (regular AIP AMDT) or of the AIRAC effective date (AIRAC AIP AMDT) of the information. Each AIP amendment cover sheet includes references to the serial number of those elements, if any, of the Aeronautical Information Products which have been incorporated in the AIP by the amendment and are consequently cancelled.

Each AIP AMDT and each AIRAC AIP AMDT are allocated separate serial numbers which are consecutive and based on the calendar year. The year, indicated by two digits, is a part of the serial number of the amendment, e.g. AIP AMDT 1/96; AIRAC AIP AMDT 1/96.

A checklist of AIP pages containing page number/chart title and the publication or effective date (day, month by name and year) of the information is reissued with each amendment and is an integral part of the AIP.

3.4 Supplement to the AIP (AIP SUP)

Temporary changes of long duration (three months and longer) and information of short duration which consists of extensive text and/or graphs, supplementing the permanent information contained in the AIP, are published as AIP Supplements (AIP SUP). AIP Supplements are separated by information subject (General - Gen, EN-Route _ENR and Aerodromes - AD) and are placed accordingly at the beginning of each AIP part. Each AIP supplement is allocated a serial number which is consecutive and based on the calendar year, i.e AIP SUP 1/03.

An AIP Supplement is kept in the AIP as long as all or some of its contents remain valid. The period of validity of the information contained in the AIP Supplement will normally be given in the supplement itself. Alternatively NOTAM may be used to indicate changes to the period of validity or cancellation of the supplement.

The check list of AIP supplements currently in force is issued in the monthly printed plain language summary of NOTAM in force.

3.5 NOTAM and Pre-flight Information Bulletins (PIB)

NOTAM contain information concerning the establishment, condition or change in any aeronautical facility, service, procedures or hazard the timely knowledge of which is essential for personnel concerned with flight operations. The text of each NOTAM contain the information in the order shown in the ICAO NOTAM Format and is composed of the significations/uniform abbreviated phraseology assigned to the ICAO NOTAM Code complemented by ICAO abbreviations, indicators, identifiers, designators, call signs, frequencies, figures and plain language. NOTAM are originated and issued for Lusaka FIR and are distributed in three series identified by the letters A,B and C.

Series A. General rules, en-route navigation and communication facilities, airspace restrictions and activities taking place within the FIR and information concerning major international aerodromes.

Series B. Information on the other International Airport/Aerodrome.

Series C. Information on National aerodromes.

Pre-flight Information Bulletins (PIB), which contain a recapitulation of current NOTAM and other information of urgent character for the operator/flight crew are available for Kenneth Kaunda International Airport/aerodrome AIS unit.

The text of the information contained in the PIB is indicated under 5 of this subsection.

3.6 Checklists and summary of NOTAM

A Checklist of Valid NOTAM is issued monthly via AFS/AMHS. The checklist is followed by a printed list of valid NOTAM distributed by email to all recipients of the Integrated Aeronautical Information Products. It contains a plain language (in English) presentation of the valid NOTAM and information about the number of latest issued AIP AMDT, AIRAC AIP AMDT, AIR SUP and AIC as well as the number of elements issued under the AIRAC which will become effective or, if none, the NIL AIRAC notification.

3.7 Sale of Publications

The said publication can be obtained from the Aeronautical Information Service.

4 AIRAC system

Whenever possible the AIRAC system will be adhered to in the Republic of Zambia.

5 Pre-flight information service at aerodromes/heliports

Pre-flight Information is available at Kenneth Kaunda, Harry Mwaanga Nkumbula, Simon Mwansa Kapwepwe and Mfuwe International briefing offices.

Daily Pre-flight Information Bulletin (PIB) - Route Bulletins and summaries are available for distribution at the aerodrome AIS unit. Other major aerodromes are connected to the International Notam Office via tie-line and AFTN. Pre-flight information in the form of PIB may be obtained from the International NOTAM office via these Aerodromes.

6 Electronic terrain and obstacle data

To Be Developed.
